Message from the Mayor and General Manager

It is with pleasure that we present to you the Carrathool Shire Operational Plan for 2019-20.

Following extensive community consultation throughout 2017 the new Community Strategic Plan "Towards 2030" was developed, a ten year vision for the type of community you want to live and work in. This plan informed the development of the Delivery Program which has in turn informed the development of this Operational Plan.

The Delivery Program, consisting of a four year budget and annual Operational Plan, is Council's considered response to the priorities identified by the community. The Delivery Program systematically addresses each strategy and assigns actions, funding and responsibilities and will be the directive document for Council's works and programs over the next four years. The Operational Plan addresses each year's specific projects and funding to realise these priorities.

Like the Community Strategic Plan, the Delivery Program and Operational Plan have been adopted by Council following a 28 day period of Public Exhibition. This process invites community comment on the draft plan and resulting comments are considered before final release of the documents.

The Council have reviewed and developed a new Community Strategic Plan, in 2017 and are encouraged that improved outcomes will be achieved. Whilst we are always mindful of the community's future needs the IP&R framework prescribes systematic, documented and accountable plans detailing how we will fulfil the community's 10 year vision.

As a Council, we are excited to work with the community and all other stakeholders to realise the Community Strategic Plan 2017-2030 "Towards 2030". We are equally excited to present the third Operational Plan for realisation of the four year Delivery Program.

Carrathool Shire's Community Vision

"Carrathool Shire Council and the Community will work together to protect and deliver quality of life in harmony with economic development and environmental sustainability"

About Carrathool Shire

Carrathool Shire Council is located on the western plains of New South Wales approximately 700 kilometres south-west of Sydney and 550 kilometres north of Melbourne.

Carrathool Shire is a predominantly rural area, made up of the town of Hillston and the surrounding villages of Goolgowi, Merriwagga, Rankins Springs and Carrathool.

The Shire encompasses a total land area of about 19,000 square kilometres and has a population of approximately 2,719 people. The rural land is used largely for agriculture and horticulture, particularly sheep and cattle grazing and cotton and rice growing. Citrus and other fruits, nut, olives and vegetables also contribute strongly to the local economy.

Carrathool is named from an Aboriginal word meaning "Native Companion". The original inhabitants of the Carrathool area were the Wiradjuri Aboriginal people.

The people of Carrathool Shire are a close knit community, some families have lived in the Shire for generations and others are new settlers. They are hard workers, with traditional values and place a great significance on sense of family and community spirit.

Carrathool Shire Council's vision is to protect and promote quality of life with economic development and environmental sensitivity.

Council's mission is to provide the community of Carrathool Shire with cost effective works, services and planning, fundamental to the progression of quality of life.

Organisation Structure

What is Integrated Planning and Reporting

The introduction of integrated planning and reporting legislation in NSW in 2009 has required all councils to prepare a Community Strategic Plan which identifies the aspirations and strategic directions for the community.

Councils across NSW were divided into three groups with Carrathool Shire sitting in group 3. As such, our suite of plans under IP&R must be finalised and lodged with the Division of Local Government by June 30, 2012.

To support the Community Strategic Plan effectively, councils are required to develop a ten year Resourcing Strategy which includes:

- a Workforce Plan
- Asset Management Plans
- a Long Term Financial Plan

All plans must integrate with other internal documents including the Local Environmental Plan and Development Control Plans.

This new planning framework places greater emphasis on Council's role as an advocate with other levels of government and non-government service providers. Council must now engage to a larger degree with issues outside its area of immediate influence and responsibility.

Four key areas must be addressed covering what is known as the Quadruple Bottom Line. The four areas are: social, environmental, economic and civic leadership (governance). The plan must also be based on the social justice principles of equity, access, participation and rights.

Sitting under the ten year plan Council is required to develop a four year Delivery Program including a one year Operational Plan. These plans will provide the detail of actions taken to implement the strategies and objectives outlined in the ten year Community Plan.

Whilst development of such a plan is a legislative requirement Carrathool Shire Council has enthusiastically embraced the opportunity to work closely with the community in setting its own vision and priorities and identifying the respective partners to ensure realisation of the vision.

The new IP&R Framework fosters an environment where greater outcomes may be realised when vision is mutual, ownership is shared and the workload is reflective of the skills, strengths and responsibilities of the varying parties.

The Ten Year Plan – Delivering the Vision

Through the process of developing the Community Strategic Plan both Council and the community will have a better understanding of:

- Expected pressures that will affect the community socially, environmentally and economically and the drivers behind any change
- Expected economic growth rates
- The community's aspirations and priorities for improving its economic, environmental and social outcomes
- The community's priorities in terms of expected levels of service and community projects.

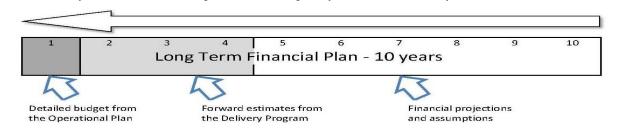

The Integrated Planning and Reporting Framework calls for fully integrated plans. Each of the following plans forms a component for realising the ten year Community Strategic Plan. The various plans are:

The Resourcing Strategy

1. Long Term Financial Plan (LTFP)

The Long Term Financial Plan is a decision-making and problem-solving tool. It is not intended that the LTFP is set in concrete rather it is a guide for future action. It will provide an opportunity for Council to identify financial issues at an earlier stage and gauge the effect of these in the longer term.

This is the point where Council and the community may decide what resources council needs to influence and work with other parties so that they can deliver on the plan. It is not expected that the 10^{th} year of the 10 year plan will include specific detail.

1. Workforce Management Plan

Workforce planning will help to ensure that the community's strategic goals, as expressed in the Community Strategic Plan, are met. The development of an effective workforce strategy will enable Council to focus on the medium and long term and also provide a framework for dealing with immediate challenges in a consistent way.

An effective workforce strategy aims to provide Council with the people best able to inform its strategic direction, develop innovative approaches to complex issues and deliver appropriate services effectively and efficiently.

2. Asset Management Planning

Council assets include roads, water and sewerage assets, drains, bridges, footpaths, public buildings, recreational facilities and parks and gardens. As custodian, councils are responsible for effectively accounting for and managing these assets. This is a core function of Council as stated in the Local Government Act 1993.

Furthermore, a strong and sustainable local government system requires a robust planning process to ensure that assets are managed in the most appropriate way on behalf of the local community.

The Delivery Program

The Delivery Program is developed every four years and is the point where the community's strategic goals are systematically translated into actions.

The Delivery Program is a statement of commitment to the community from each newly elected council. In preparing the Delivery program, Council is accounting for its stewardship of the community's long term goals, outlining what it intends to do towards achieving these goals during its term of office and what its priorities will be.

It is designed as the single point of reference for all principle activities undertaken by Council during its term of office. All plans, projects, activities and funding allocations must be directly linked to this Program.

The Operational Plan

The Operational Plan is developed each year and details how the Delivery Program will be realised. It itemises the individual projects and activities that will be undertaken for the year to achieve the commitments made in the Delivery Program.

The Operational Plan is a sub-set of the Delivery Program not a separate entity.

From: Planning a Sustainable Future: Manual 2010. Office of Local Government, Department of Premier and Cabinet.

Outlining the major Issues for Carrathool Shire as we head to 2030

Council is committed to working with the community to realise the goals established in this plan. The following issues have been identified as the key challenges facing Carrathool Shire over the next ten years.

- Water Security
- Changing demographic; aging population, young people moving from the district
- Economic constraints
- Government regulations
- Managing the balance between community expectations and Council's ability to deliver.

Four Year Delivery Program

The Four Year Delivery Program has been written to establish a strategic approach to achieving the strategies and actions identified in the Community Strategic Plan (CSP).

Reflecting the CSP the Delivery Plan is divided into five thematic areas

- An Inclusive, Connected and Healthy Community
- Infrastructure for a sustainable future
- Growing and Diverse Economy
- Sustainable Natural Environment
- Leadership and Governance

Tracking and Assessing Progress

Council is committed to implementing the strategies and actions identified in this Delivery Program. Performance Indicators have been embedded in the document with relevant staff assigned to each action. These actions will become part of Council's annual staff performance review process.

A range of tools will be used to measure success including

- Analysis tools currently used by Council including statistics, feedback, surveys, number and range of successful grant applications, conformance with statutory and regulatory requirements,
- Council is committed to holding a 12 month review of the Community Strategic Plan, the document which underpins this Delivery Program. Community meetings will be held across all communities providing an opportunity to reflect upon the first 12 months of the Community Strategic Plan. Council will seek the communities' thoughts on how things are progressing. Have we done what we said we would do? Is the Plan working?
- A qualitative community survey undertaken every three years
- Feedback from other organisations (Government and non-government)
- Development of a matrix to measure and illustrate progress.
- Reporting to outgoing Councils. Part of the legislative requirement for the Integrated Planning and Reporting process is the need to report to all new councils after Council elections. This provides an opportunity to reflect on progress three times within the Plan's ten year time frame.

Directions for 2019-20

The Carrathool Shire Council budget is funded through a variety of sources including:

- Federal Government Funding and Grants
- State Government Funding and Grants
- Rates, Fees and Charges
- Grant funding
- Loans/Borrowings

Council's budgeted surplus for the 2019-20 budget is \$9,111.

In order to provide the breadth of resources managed by Council a combination of funding sources is often required. Following is an overview of some of the projects and funding strategies for the forthcoming year.

Plant and Fleet

Council's Plant and Fleet decisions have been prudent and cost effective with Carrathool Shire Council's change over costs decreasing over the years as Council has actively managed plant and fleet with both long term and immediate needs in mind.

Council's Plant and Fleet program has been designed to meet all of the challenges posed by operational needs considering the need for operational efficiency and reduced down times.

Net change over cost to Council for major plant items total \$1,107,500 with the net total cost of plant acquisitions in this budget amounting to \$1,667,365.

Roads and Bridges

Major works for the current financial year are determined at the Roads Committee Meetings. These meetings determine work that will be conducted through the Roads to Recovery program (Federal Government) and also the Repair Program for Regional Roads (State Government) and administered by Roads and Maritime Services.

Road maintenance for our Local Road network is funded from the Federal Assistance Grant and Road maintenance for our Regional Road Network is funded by the State Government through Roads and Maritime Services.

This year the Roads to Recovery spending amounts to \$2,280,738 with works planned for the Roto Road, Melbergen Road, Erigolia Road, Back Hillston Road, Carrathool Road, Mitchells Road, Tabbita Lane, Bringagee Road, Murrumbidgee Road and Cahills Road.

Council is also planning to complete \$200,000 in footpath construction and replacement in Hillston, Goolgowi and Rankins Springs and \$100,000 in kerb and guttering replacement works in Hillston.

Planning and Environment

Projects funded through the 2019-20 Operational Plan include:

- Rubbish Tip capital works of \$150,000
- Goolgowi Swimming Pool upgrade \$300,000
- LEP Review \$100,000

Parks & Gardens & Recreation Grounds

Projects funded through the 2019-20 Operational Plan include:

- Parks and garden improvements totalling \$162,000
- Recreation ground improvements totalling \$75,000

Library

The Library service is one of the Shire's valued services and would not be possible without the contribution from the State Government and our membership of the Western Riverina Library Service.

The 2019/20 State Government funding stands at:

Library Subsidy	\$ 5,189
Library Local Priority Grant	\$17,413

It is through membership of the Western Riverina Libraries that Carrathool Shire can provide the Mobile Library Service to be a presence in all villages in our shire.

In 1983, Carrathool Shire signed an agreement to remain with the Western Riverina Community Library which is now known as Western Riverina Libraries (WRL), member Councils include Carrathool, Hay, Jerilderie, Murrumbidgee, Narrandera and the City of Griffith.

HACC & Community Transport

The HACC service provides care and support for around 48 clients and continues to operate well.

Council will also continue to provide community transport and respite services whilst ever possible in an ever increasing competitive market.

Water Supply and Sewer Services

Carrathool Shire Council provides and maintains reticulated potable water supplies to the towns and villages of Hillston, Goolgowi, Merriwagga, Rankins Springs and Carrathool. In addition, extensive rural water supply schemes supply non-potable water to Rankins Springs, Melbergen, Yoolaroi, Goolgowi, Bunda, Palmyra and Black Stump schemes.

Reticulated sewerage systems are provided to service the towns of Hillston and Goolgowi, whilst Merriwagga and Carrathool are un-sewered. The village of Rankins Springs is provided with a Common Effluent Disposal system that conveys treated effluent from individual premises to a central evaporation pond.

The systems have operated reliably over the last twelve months but maintenance requirements are high. Capital improvements have been planned for the water schemes and include mains and pumps replacements amongst other works totalling \$1,313,646.

Capital improvements have also been considered for the sewerage schemes and totals \$363,130.

Riverina and Murray Joint Organisation (RAMJO)

RAMJO's mission is to work collaboratively to enhance the economic, social, economic and environmental capabilities of our communities so as to ensure the long term sustainability of our region.

- Region has mix of regional centres, medium sized towns and urban shires, through to rural shires large in area but small in population;
- Region encompasses the Murray, Murrumbidgee and Lachlan Valley catchment areas.

Risks

Council is committed to working with the Community and other agencies to realise the priorities and aspirations of the community as identified in this plan. It should, however, be noted that there are matters which will influence this outcome.

Risks which may impact the delivery of this plan include:

- Budget and other financial matters
- Aging community and a changing demographic
- Government legislation
- Increasing government regulation
- Government inaction
- Grant funding not keeping pace with increasing needs and costs

Pricing Code

Code	Type of Service	Basis for Fee
1.	<u>Public Good</u> – Service provides a broad community benefit. Inconceivable or impractical to charge for service on a user basis.	Zero Cost Recovery
2.	<u>Practical Constraint</u> – Service is a minor part of the overall operation of Council, or the potential for revenue collection is so minor as to be outweighed by the costs of collection.	Zero Cost Recovery
3.	<u>Shared Benefits</u> – Benefits from the provision of the service accrue to the community as a whole as well as individual users (Community Service Obligation).	Partial Cost Recovery
4.	<u>Stimulus</u> – A stimulus to the demand for the service is required. In the short term only part of the cost of the service is to be recovered.	Partial Cost Recovery
5.	<u>Evasion</u> – Charging prices to recover full cost may result in widespread evasion.	Partial Cost Recovery
6.	<u>Equity</u> – The service is targeted to low income users.	Partial Cost Recovery
7.	<u>Economic</u> – Service promoted or encourages local economic activity.	Full Cost Recovery
8.	<u>Private Good</u> – Service benefits particular users making a contribution to their individual income, welfare or profits without any broader benefits to the community.	Full Cost Recovery
9.	$\underline{Monopoly}$ – Council has a monopoly over the provision of the service and there is minimal or no competition.	Full Cost Recovery
10.	<u>Developmental</u> – Fee set will enable Council to develop and maintain a service.	Full Cost Recovery
11.	<u>Contribution</u> – Charges levied to compensate community for an increase in demand for service or facilities as a consequence of a development proposal.	Full Cost Recovery
12.	<u>Regulatory – Non-fixed</u> – Fee charged to cover cost incurred by legislative requirements where no community service obligation exists.	Full Cost Recovery
13.	<u>Regulatory – Fixed</u> – Fee fixed by legislation.	Regulatory
14.	<u>Market</u> – Service provided is in competition with that provided by another council or agency (private or public) and there is pressure to set a price which will attract adequate usage of the service.	Reference Pricing
15.	<u>In-House</u> – Service provided predominately for Council use but sale to external markets will defray costs.	Reference Pricing
16.	<u>Entrepreneurial</u> – The service is a profit making activity and the price paid by users pricing should recover an amount greater than the full cost of providing that service.	Rate of Return
17.	<u>Penalty</u> – Fee charged is greater than the cost of the service so as to act as a Pricing disincentive.	Rate of Return
